## SUMMARY

Software Engineer vocational high school graduate with 6+ months of hands-on experience gained through internships and projects. Skilled in frontend development using React, TypeScript, and Next.js, with additional project experience spanning desktop applications, mobile development, and full-stack systems. Passionate about continuous learning and expanding technical expertise across all aspects of software development. Adaptable to new technologies with strong commitment to comprehensive technical growth.

---

## WORK EXPERIENCE

### PT. Lentera Solusi Informasi

July - September 2024 (Internship) / October 2024 - March 2025 (Freelance)

#### Frontend Developer

- Developed and maintained frontend components using Next.js, and TypeScript for interactive web applications
- Built responsive and user-friendly interfaces that improved overall user experience
- Collaborated with design and backend teams for API integration and end-to-end feature development
- Enhanced existing project functionality by implementing multiple new features

### PT. INIMEDIA KREATIF INDONESIA

January - March 2024

#### Frontend Developer Intern

- Learned and applied React fundamentals to build responsive user interfaces under senior developer guidance
- Participated in hardware installation and maintenance at client locations, gaining understanding of complete system integration
- Contributed to frontend development by implementing user-friendly features based on project requirements

---

## EDUCATION

### Sekolah Menengah Kejuruan Negeri 10 SURABAYA

#### Software Engineering Major

2022 - 2025

---

## SCHOOL TEAM PROJECTS

#### Banking Application System (Team of 2 - Lead Programmer)

- Built dual-platform system: Java desktop (ATM interface) and PHP web (mobile banking)
- Implemented SQL database with seamless synchronization between platforms
- Developed complete backend for transactions, authentication, and account management

#### Quiz Mobile Application (Team of 4 - Project Manager & Web Developer)

- Led team using React Native (mobile) and Remix React (web) with GraphQL database
- Developed web application and provided React Native troubleshooting support
- Successfully delivered cross-platform application with real-time synchronization

---

## SKILLS

Strong team collaborator with effective communication skills, demonstrated through project leadership and mentoring experience. High proficiency in React, Next.js, TypeScript, REST API and GraphQL through extensive hands-on experience. Quick to adapt and learn new technologies, with solid working knowledge of React Native for mobile development, PHP for web applications, Java for desktop applications, and SQL/MySQL for database management. Practiced with Git/GitHub for version control and systematic problem-solving approach across all development projects
