Achmad Zhafran Alysyam

zaazhafrnn@gmail.com | Surabaya, Jawa Timur

SUMMARY

Software Engineer vocational high school graduate with 10+ months of hands-on experience gained through internships, freelance, and school projects. Skilled in frontend development using Next.js, TypeScript, and React, with additional project experience spanning desktop applications, mobile development, and full-stack systems. Passionate about continuous learning and expanding technical expertise across all aspects of software development. Adaptable to new technologies with strong commitment to comprehensive technical growth.

WORK EXPERIENCE

PT. Lentera Solusi Informasi
July - September 2024 (Internship) / October 2024 - March 2025 (Freelance)
Junior Frontend Developer

- Developed and maintained responsive, user-friendly and responsive interfaces using Next.js and TypeScript for interactive web applications that improved overall user experience
- Collaborated with backend teams for API integration with MongoDB-based systems, enhanced existing project functionality by implementing multiple new features

PT. INIMEDIA KREATIF INDONESIA
January - March 2024
Frontend Developer Intern

- Learned and applied React fundamentals to build responsive user interfaces and implemented user-friendly features based on project requirements under senior developer guidance
- Participated in hardware installation and maintenance at client locations, gaining understanding of complete system integration

EDUCATION

Sekolah Menengah Kejuruan Negeri 10 SURABAYA
Software Engineering Major
2022 - 2025

SCHOOL TEAM PROJECTS

Quiz Mobile Application *(Team of 4 - Project Manager & Web Developer)*

- Led team using React Native (mobile) and Remix React (web) with GraphQL database
- Developed web application and provided React Native troubleshooting support
- Successfully delivered cross-platform application with real-time synchronization

Banking Application System *(Team of 2 - Lead Programmer)*

- Built dual-platform system: Java desktop (ATM interface) and PHP web (mobile banking)
- Implemented SQL database with seamless synchronization between platforms
- Developed complete backend for transactions, authentication, and account management

SKILLS

Strong team collaborator with effective communication skills, demonstrated through diverse project. Core expertise lies in frontend development with high proficiency in Next.js, TypeScript, and React libraries gained through multiple hands-on projects. Experienced in building full-stack web development using PHP and have experience with mobile development through React Native and desktop applications using Java. For data management, proficient with both REST API, MongoDB, and GraphQL alongside SQL/MySQL database systems. Also maintain systematic problem-solving approaches across all development projects and utilize Git/GitHub for version control, while being quick to adapt and learn new technologies.
